## ESSENTIAL TIPS

- 1** **String lines first** - non-negotiable for runs over 10m.
- 2** **Mow before marking** - mark within 24 hrs of cut.
- 3** **Light touch-ups** - avoid heavy paint build-up.
- 4** **Multi-code sequence** - boundary first, internals last.

## TURF TYPE NOTES

### Couch

Fine texture holds edges well. Apply lighter coats

### Kikuyu

Fast vertical growth. More frequent touch-ups needed.

### Cool-Season

Absorbs faster. Watch dormant patches for build-up.

## MARKING CONDITIONS

### ✓ IDEAL

Moderate moisture, 15–25°C, low wind, early AM or late PM.

### ⚠ CAUTION

Surface temp 25–35°C, light dew, weather change approaching.

### ✗ AVOID

Saturated surface, >35°C, heavy dew, rain imminent, strong wind.

**Please note:** Always verify dimensions with governing body regulations before competition marking.
