MACSPRED

Dismiss™

Ornamental Herbicide

Dismiss™ up to 3 months weed control.

- ✔ **Dismiss™** ornamental herbicide is a safe, cost effective pre-emergent granular herbicide which combines two tried and proven active ingredients in the one granule. This combination offers broad spectrum weed control of both broadleaf and grass weeds to a standard expected by the nursery and landscaping industry.
- ✔ **Dismiss™** ornamental herbicide provides up to 3 months weed control of over 40 different weed species in potted and open grown ornamentals.
- ✔ **Dismiss™** ornamental herbicide is packaged in convenient to use 10 kg and 20 kg pails and a handy screw top 1 kg container.
- ✔ Increase the aesthetic and commercial value of your potted inventory through weed free pots with Macspred **Dismiss™** Ornamental Herbicide.

*Easy to apply, low dust,
low odour granular
formulation.*

For Best Results:

- Apply **Dismiss™** evenly through a calibrated applicator or by gloved hand to moist potting medium or by overhead watering immediately after application. Do not apply to wet foliage.
- One application will last for up to 3 months. Re-treat when the first signs of regrowth are seen but no sooner than 2 months and no later than 3 months after application.
- Do not apply **Dismiss™** ornamental herbicide 2 weeks prior to or 2 weeks after leaf bud break or during periods of flush growth. Newly formed leaves are sensitive to this product.

Application.

Shaker Jug application:

The **Dismiss™** calibrated shaker jug (see photo) can be used for accurate rate of application and distribution of **Dismiss** to individual pots.

Granular Spreader application:

For broad scale application Gordon's Spread-Rite® granule spreader (see photo) is also suitable for accurate distribution of **Dismiss™** granules. Gordon's Spread-Rite® applicator will enable 0.8 metre swath pattern (100kg/ha recommended rate) distribution walking at 1metre per second.

Always refer to the product label before use. Do not use contrary to the product label.
